

## LED rope IP65 300 LED / meter 5.00 m SMD 12 VDC cold white

### General information

These strips are ideal for kitchen cabinet lighting, under cabinet lighting, and any home lighting, as well as for adding light to confined spaces such as coves, doorways and other hard-to-light nooks and crannies. They even work for edge-lit glass decoration. Flexible LED Strip Lights have a 120 degree, wide-angle beam that ensures they light evenly and do not cast shadows on surfaces.

This model is also suitable for outdoor use (IP65).

These ropes are cuttable and extendable, so you can make the length you need.
